MOTOR CYCLES

VALIANT

The Valiant, with its sleek easy clean cover over engine and gearbox, has flat twin air-cooled engine. Transmission is by fully enclosed shaft. This high performance machine has a specification hitherto unobtainable in a machine of this class which combines good looks with performance to match.

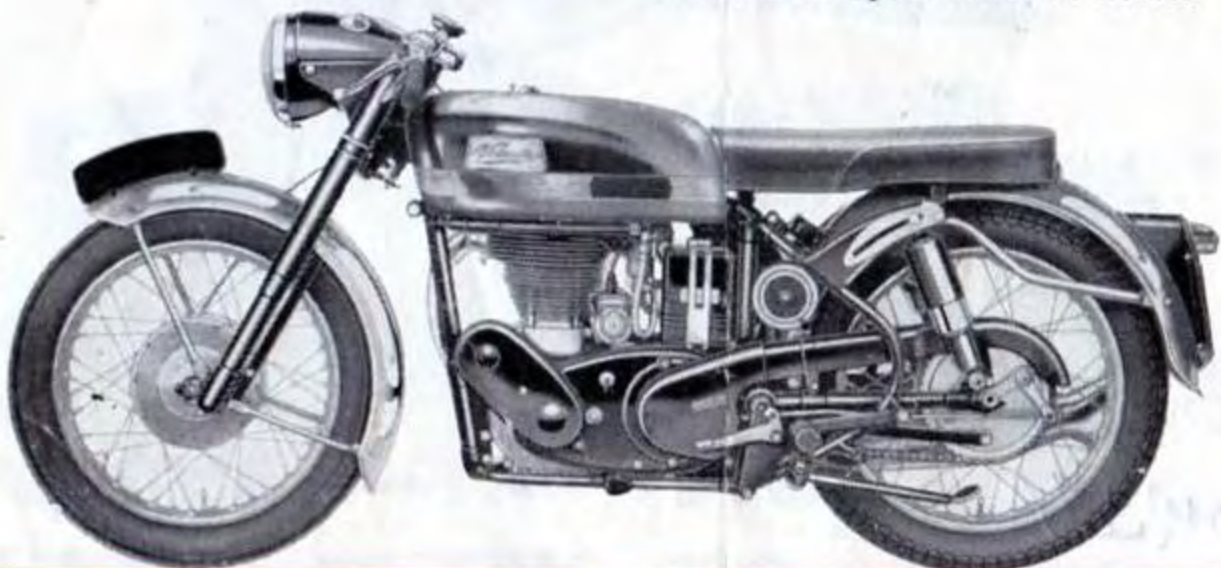

Finished in Black or Willow Green with three-dimensional 'Diacon' tank badges. Safety Bar, Pillion Footrests and left hand matching tool box obtainable as extras.

VIPER CLUBMAN '350'

VENOM CLUBMAN '500'

These super sports editions of the Viper and Venom models incorporate special racing equipment for participation in Clubman Type races. Specification includes high compression piston, T.T. carburettor, racing type hand controlled magneto. T.T. close ratio gears, rear mounted footrests and pedals. Flexibly mounted re-designed petrol tank with increased capacity. The front fork has two-way damping and is fitted with a steering damper. Tachometer (rev. meter) and light alloy rims available extra. Also the two entirely new streamlined models with Dolphin type fairing: the Viper VeeLine Clubman and Venom VeeLine Clubman. Mechanical specification as above.

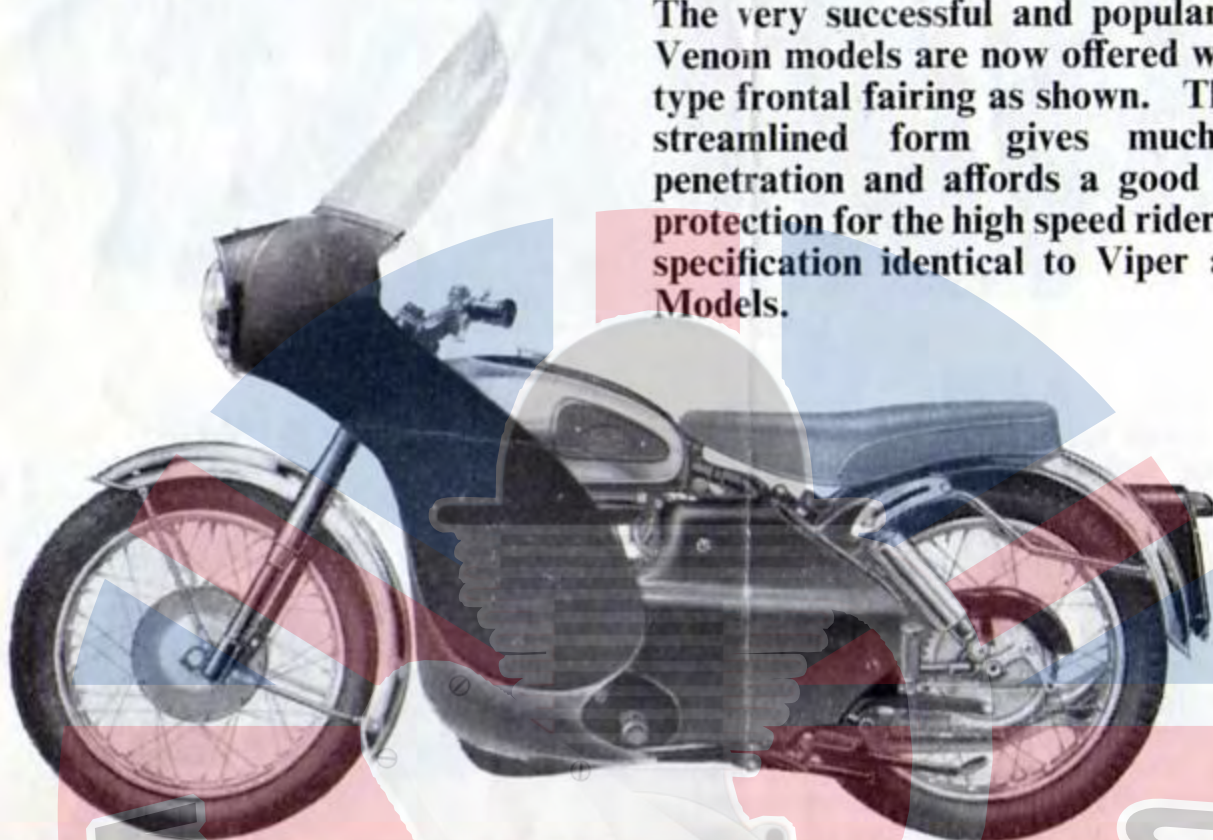

Standard finish black, plated and panelled tank with entirely new motif. Crankcase, timing cover and gearbox polished.

VIPER VeeLine '350'

VENOM VeeLine '500'

The very successful and popular Viper and Venom models are now offered with Dolphin type frontal fairing as shown. The excellent streamlined form gives much improved penetration and affords a good measure of protection for the high speed rider. Technical specification identical to Viper and Venom Models.

Standard finish in Black enamel with Chromium-plated tank panels and mudguards.

VIPER '350' SPORTS O.H.V.

A high performance sports model built in the best Velocette tradition. Hairpin valve springs, Nimonic 80 exhaust valve, high compression piston, close-spaced, main bearings and "whip free" flywheel assemblies are unique features on this machine. Fitted as standard with a fibreglass fairing over crankcase and gearbox as illustrated.

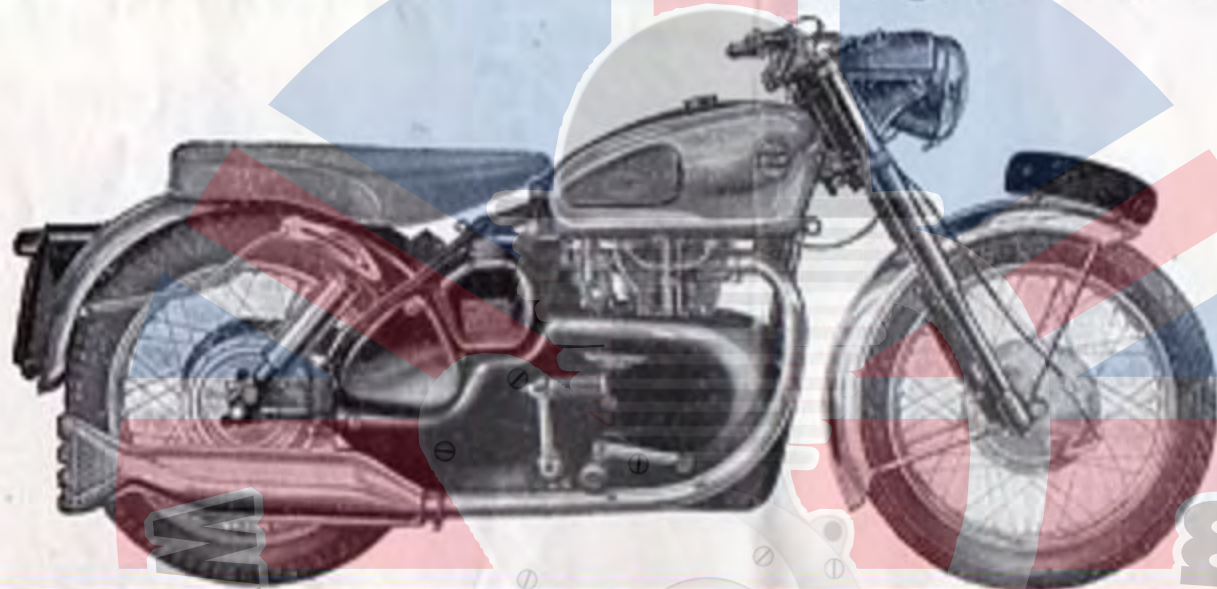

Standard finish in Black enamel with bright Chromium-plated tank panels and Mudguards (all enamelled optional) and having three-dimensional 'Diacon' badges. Alternatively the model can be supplied in dual Red/Black or White/Black.

VENOM

'500' SPORTS

O.H.V.

A companion model to the Viper with a larger capacity engine and consequently higher performance. Unique engine features of the Viper are common to the Venom and the engine capacity is 499 c.c. Like the Viper, it is fitted with full-width alloy hubs and powerful brakes. Chromium-plated rims, studded rear and ribbed front tyres. Fitted as standard with a fibreglass fairing over crankcase and gearbox as shown.

Standard finish in Black enamel with bright Chromium-plated tank panels and Mudguards (all enamelled optional) and having three-dimensional "Diacon" badges. Alternatively the model can be supplied in dual Red/Black or White/Black.

MSS '500'

O.H.V.

This machine, an ideal heavy duty model with 500 c.c. engine, is fitted as standard with a streamline fibreglass fairing of sleek appearance, thus facilitating cleaning. The fairing encloses crankcase, gearbox, dynamo and battery. Sidecar specification without extra charge. Adjustable hydraulic damped rear suspension. Telescopic hydraulic damped front fork.

Finish in Black and Chrome, Gold lined. Three-dimensional "Diacon" tank badges. Chromium-plated handlebars—American type optional.
